

2027 YEAR 7 TRANSITION PROGRAM

The Warrnambool College Transition Program for our incoming Year 7 students is designed to provide information to students and families, provide an opportunity to become familiar with the school environment and to meet staff and teachers.

IMPORTANT DATES

SMALL SCHOOLS DAY

Monday Dec. 7th

This transition day is offered to students coming to Warrnambool College from a primary school with 10 or less students. The aim of this day is to make a few additional friends with other students from “small schools” on the Monday, before returning with everyone on the Tuesday.

SPP SCREENING SESSION

Monday Dec. 7th, 9am - 1pm

Students in the Sporting Pathway Program are invited to a half-day session, where they will complete pre-fitness assessments and some get to know each other activities, prior to the Statewide Orientation Day. Students should wear clothing that is appropriate for physical activity. Students will have the chance to meet the SPP team, ask any questions they may have regarding the program and make some friends who share similar passions.

INDIGENOUS ENGAGEMENT

Monday Dec. 7th, 1pm – 3:25pm

The induction will be a half-day session, run by our Stars and Clontarf Academies. The major goal for the day is to make the students feel culturally safe in the school environment, welcome them to the Academies and provide some familiar faces with an opportunity to ask any questions, address any concerns the students might have ahead of the Orientation Day and starting secondary school in 2027.

STATEWIDE ORIENTATION DAY

Tuesday Dec. 8th

The traditional Orientation Day, where students get to meet new friends, meet their teachers and get used to their new school. They will check out the Year 7 area, meet their Sub School team and engage in some classes they will have in 2027.
